

Configuring Test Results and Feedback to Students on Blackboard

Step 1) Go the exam link within your course. In this example, the exam link is within the “Course Documents” area. Click the downward facing arrow to the right of the exam link, and select "Edit the Test Options".

Step 2) Scroll down to the section titled "Show Test Results and Feedback to Students".

SHOW TEST RESULTS AND FEEDBACK TO STUDENTS

Test results and feedback are available to students after they complete a test. Set up to two rules to show results and feedback. Rules occur based on the events selected. Each rule specifies when and what to show students; such as scores, answers, and feedback for each question.

When (i)	Score per Question (i)	Answers (i)	Feedback (i)	Show Incorrect Questions (i)
After Submission ---Choose--- After Submission One-time View On Specific Date After Due Date After Availability End Date After Attempts are graded	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> All Answers <input type="checkbox"/> Correct <input type="checkbox"/> Submitted	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/> All Answers <input type="checkbox"/> Correct <input type="checkbox"/> Submitted	<input type="checkbox"/>	<input type="checkbox"/>

Once you are there, you will see several options. Below is a description of each of the 6 main options:

Score per question (Automatically set by default) – Shows the overall test scores and the scores earned for each individual question. PLEASE NOTE: if you leave this default box checked, ALL of the exam questions (but not the answer choices) will be available for the student to view after they submit their exam.

All Answers – Shows the questions and all answer choices.

Correct – Shows the questions and correct answers.

Submitted – Shows the questions and the answer choices selected by students.

Feedback – Shows the questions and any instructor feedback messages for each question.

Show Incorrect Questions – Shows the questions and the answer choices selected by students with an indication that the answer is incorrect.

Check the box next to the test results options that you want enabled. Then click "Submit" on the bottom right to finalize.

Here are what the students will see based on the above options:

1. Score Per Question (*Note: with this default checked, students will see the exam questions*):

Review Test Submission: Exam 1

User	Fake Student Five
