Excellent work! I think having a few additional sources to draw from would have pushed you to a full 100 points earned, but still -- Bravo!

B) Students can view annotations left on directly on their assignment submissions by clicking the title of the assignment. Continue to the next page to see an example of what that would look like...

The screenshot shows a submission review interface. At the top, there is a navigation bar with icons for page navigation, zoom, and search. The main content area displays a document titled "Mimic Marceau" with several paragraphs of text. A red arrow points from a callout box to a comment bubble on the document. To the right, there is a sidebar with "Assignment Details" showing a grade of 95.00 / 100 and a submission history table. Below the table, there is a "Feedback to Learner" section with a comment from James Weirich and a "Save As Artifact" button.
