

How to Hide / Reveal Courses on Your Blackboard Course List

The steps in this guide show you how to hide courses from your course list, but you can use these same steps to reveal courses that have been hidden.

Step 1) Log into Blackboard.

Step 2) Find your course list on the right hand side. Hover your mouse cursor over the title “My Courses”

You will see a little “cog” icon appear on the far right corner of your My Courses panel. Click that once.

Step 3) On the next page, locate your course, and uncheck all boxes associated with that course to remove it from your list. Or, if you are aiming to reveal hidden courses, please check the boxes “Course Name” boxes and click “submit” to finalize.
